PROFILE SUMMARY

Motivated and tech-savvy IT student at Sindh University with a strong foundation in programming and a growing passion for cybersecurity. Skilled in writing clean, efficient code and exploring advanced cyber defense techniques. Demonstrates a solid understanding of network security, ethical hacking, and digital forensics. Known for problem-solving abilities, quick learning, and a proactive approach to staying updated with the latest trends in technology. Eager to contribute to innovative projects and pursue a career in cybersecurity to help protect digital assets and systems.

EDUCATION

BSc Information Technology Jan 2024 –continue
University of Sindh Jamshoro

RELEVANT COURSEWORK

Programming Fundamentals | Data Structures and Algorithms | Web Development | Database Management Systems | Operating Systems | Computer Networks | Cybersecurity Principles | Ethical Hacking | Cryptography | Digital Forensics | Information Security Management | Cloud Computing | Linux System Administration

PROFESSIONAL EXPERIENCE

Cybersecurity Threat Detection Tool – Student Project *Feb 2025 – Apr 2025*

- Developed a Python-based tool to monitor network traffic and identify suspicious activity.
- Implemented basic anomaly detection using packet analysis and logging.
- Strengthened understanding of cybersecurity protocols and threat mitigation

.

Student Portal Web Application – University Project *Sep 2024 – Dec 2024*

- Designed and built a full-stack web application using HTML, CSS, JavaScript, and PHP.
- Integrated MySQL database for student data management and course registration.
- Focused on user authentication and role-based access control.

Linux Server Hardening – Lab-Based Project *Jun 2024 – Jul 2024*

- Configured a Linux server to enhance security by disabling unused services and setting up firewalls.
- Implemented SSH key authentication and documented hardening procedures.
- Gained hands-on experience with system administration and cybersecurity best practices.

TECHNICAL SKILLS

Programming (Python, C++, Java) | Web Development (HTML, CSS, JavaScript, PHP) | Database Management (MySQL, SQL) | Cybersecurity (Ethical Hacking, Network Security, Cryptography) | Linux System Administration | Digital Forensics | Cloud Computing | Version Control (Git & GitHub) | System Hardening | Network Scanning Tools (Wireshark, Nmap)

PROJECT EXPERIENCE

Cybersecurity Threat Detection Tool – Student Project *Feb 2025 – Mar 2025*

- Led the development of a Python-based tool to monitor and log suspicious network activity.
- Applied packet sniffing and anomaly detection techniques to identify potential threats.

- Strengthened practical knowledge of network protocols and cybersecurity defense strategies.

HONORS & AWARDS

LICENSES & CERTIFICATIONS

- **Build a Free Website with WordPress** – Coursera Project Network *Issued Apr 2025* | *Credential ID: KAHO4196LRW0*
- **Use WordPress to Create a Blog for Your Business** – Coursera Project Network *Issued Mar 2025* | *Credential ID: K26V8GRUXSRB*
- **People and Soft Skills for Professional and Personal Success Specialization** – IBM *Issued Feb 2025* | *Credential ID: 9VN10BGQEEI7*
- **Tools of the Trade: Linux and SQL** – Google *Issued Feb 2025* | *Credential ID: A6OLWMFRGM7J*
- **Connect and Protect: Networks and Network Security** – Google *Issued Jan 2025* | *Credential ID: X560B2H1QF5K*
- **Foundations of Cybersecurity** – Google *Issued Jan 2025* | *Credential ID: UI0ZRDSVLSK1*
- **Play It Safe: Manage Security Risks** – Google *Issued Jan 2025* | *Credential ID: SBUCE6762TA3*
- **AI For Everyone** – DeepLearning.AI *Issued Dec 2024* | *Credential ID: FRMSL2G15GAP*
